CLAMSHELL CARD

Robust and Smart Access Control Solution

The LINXENS CLAMSHELL CARD is a robust though easy to handle product for access control applications.

Carried in the wallet or purse, the LINXENS CLAMSHELL CARD offers enhanced user convenience for secure access control. Made of hard shell ABS, the contactless card is a robust and durable solution even in harsh environments.

The LINXENS CLAMSHELL CARD can be easily adapted to client specific designs with the option to print or embed a logo on its surface.

Overview

Operating Frequency

125 kHz

Operating Temperature

-35 to 60°C / -31 to 140 °F

Material

ABS – hard shell (white)

PVC – sticker on the back side

Dimension

85.8 x 54.0 x 1.6 mm / 3.37 x 2.13 x 0.06 “

Application Area

- Access Control

Benefits

- Reliable solution
- User convenience
- Durability even in harsh environments
