

Linxens named as CES Innovation Awards® 2025 Honoree

Levallois, France 14th November, 2024 – Linxens, global leader in component-based solutions, announces its recognition as a CES Innovation Awards® 2025 Honoree in the Sustainability & Energy/Power category. The announcement comes ahead of CES 2025, the world's most powerful technology event, taking place Jan. 7-10 in Las Vegas. At CES, Linxens will showcase its award-winning product and other innovative solutions.

Linxens' award-winning product, the Satellite Sticker, represents a breakthrough in autonomous tracking and data collection. Using a secure satellite communication protocol and the most advanced energy harvesting technology, the Satellite Sticker enables users to accurately track the location of a device anywhere in the world. This fully energy-independent, flexible and reusable device is easy to deploy, making it a unique tracking solution in terms of sustainability and coverage.

"I am very proud that Linxens has been honored with this innovation award," said Amaud Brunetière, CEO of the Linxens Group. "CES is an opportunity to showcase the hard work of our engineers, researchers, and innovators. This award highlights their commitment to create technology that anticipates our customers' needs and addresses the challenges of tomorrow."

"With this autonomous solution, we are directly addressing the logistics industry's need for sustainable traceability tools. The Satellite Sticker helps to reduce emissions, improve operational efficiency, and unlocks new data analysis possibilities that are essential for informed decision-making", said Quentin Prêtet, Vice President of Linxens IoT Solutions.

The CES Innovation Awards program is an annual competition honoring outstanding design and engineering in consumer technology products. A panel of expert judges selects winners from a multitude of 33 product categories. To view the CES 2025 Innovation Award winners, visit www.CES.tech/innovation.

About Linxens

Linxens is a leader in the electronics industry, designing and manufacturing innovative components for major players in telecommunications, transportation, hospitality, leisure and entertainment, financial services, government, access control and connected healthcare. Linxens also develops complete solutions for IoT applications. We are committed to provide our partners with customized solutions that integrate seamlessly into their production processes to deliver a seamless experience for the end user. With nearly 3,000 employees worldwide, 8 production facilities and 7 R&D centers in Europe and Asia, Linxens is positioned as a facilitator of innovation, opening the way for a better life. About CES®

CES is the most powerful tech event in the world – the proving ground for breakthrough technologies and global innovators. This is where the world's biggest brands do business and meet new partners, and the sharpest innovators hit the stage. Owned and produced by the Consumer Technology Association (CTA)®, CES features every aspect of the tech sector. CES 2025 takes place Jan. 7-10, 2025, in Las Vegas. Learn more at CES.tech and follow CES on social media.

About Consumer Technology Association (CTA)®

As North America's largest technology trade association, CTA is the tech sector. Our members are the world's leading innovators – from startups to global brands – helping support more than 18 million American jobs. CTA owns and produces CES® – the most powerful tech event in the world. Find us at CTA.tech.
